PROFESSIONAL SUMMARY

Junior QA Engineer / Software Tester with hands-on project experience in manual testing, functional test case design, requirements analysis, and defect documentation. Designed 30+ test cases covering positive, negative, and boundary-value scenarios. Brings experience following structured procedures, maintaining accurate records, and collaborating with teams.

SKILLS

Testing: Manual testing, functional testing, test case design, positive and negative testing, boundary-value testing, requirements analysis, defect documentation

Programming: Python

Collaboration: Analytical thinking, problem solving, attention to detail, clear documentation, team communication

QA PROJECTS

QA Test Case Design & Manual Testing Project

- Designed and documented 30+ functional test cases for application address validation.
- Covered valid, invalid, and boundary-value inputs to check application behavior against requirements.
- Organized positive and negative scenarios into detailed test documentation to support systematic manual testing.

Software Requirements Analysis Project

- Analyzed functional software requirements and separated them into individual, testable requirements.
- Identified user interface components and validation rules to define expected application behavior.
- Translated requirements into functional specifications to support test planning and test case design.

WORK EXPERIENCE

Registered Behavior Technician (RBT) | The Arc Westchester | Feb 2026–Present

- Analyzed and documented behavioral data with attention to accuracy and completeness.
- Followed structured procedures and collaborated with multidisciplinary teams to support individualized treatment plans.

Direct Support Professional | Shrub Oak International School | Aug 2024–Present

- Supported students while following established procedures and maintaining accurate documentation.

Material Handler | Tesla | Sep 2023–Present

- Managed inventory using computerized systems and maintained accurate inventory records.
- Supported production workflow while maintaining accuracy and quality.

EDUCATION

TripleTen | Quality Assurance Program | Completed

Lakeland High School | High School Diploma | June 2012
